MONTHS

THE PROFILE OF LEAF – DOOR AND DOOR-FRAME:

CE

ADOPTION

Doors for the installation in housing development and public utility

- smooth or pressed of steel sheet covered with PVC decorative film, resistant to UV rays,
- filled with slab of foamed hard polystyrene,
- protected against forcing: lower three-bolt lock, upper three-bolt lock and three fixed bolts protecting against forcing,
- two seals on the door circumference: seal of leaf and seal of door frame,
- structure of hinges for doors opening outside and inside makes it impossible to remove door leaf.

STANDARD EQUIPMENT:

- door leaf with seal,
- door-frame in the same color like a leaf with seal,
- main three-bolt lock,
- additional three-bolt lock,
- fixed bolts protecting against forcing,
- tripartite hinges Ø16,
- lock adjustment.

In the standard equipment the frame which is available is:

- asymmetric,
- corner,
- symmetric.

ADDITIONAL EQUIPMENT FOR EXTRA CHARGE	
Lock insert 30x50 Lock insert with knob 30x50	„system on one key“ 6.2.C. category
Lock insert 30x50 Lock insert with knob 30x50	„system on one key“ 6.2.B. category
